STANDARDS

Note: this tester can conform to but not limit to all the standards above, for more standards conformance, please contact us.

Features:

- Digital thermoregulator for temperature adjustment
- Imported compressor from French Tecumseh
- Fully enclosed refrigeration compressor groups with overtemperature, overcurrent protective device
- Thermostatic liquid can be leaded to another instrument by circulating pump
- Directly do experiment in the chemical reagent tank (customized) is also available
- Fluoride-free environmental technology to save energy and reduce consumption
- Large screen display, convenient to observe the working condition
- The tank is made of high quality stainless steel material
- Microcomputer intelligent control, temperature high precision (0.01°C)

Key Specification:

- Temperature Range -5~100°C
- Temperature Fluctuation ±0.01°C
- Dimension of Water Tank 500mm×750mm×480mm
- Dimension of Upper Opening Φ160mm
- Volume of Water Tank 100L
- Dimension 1160mm×750mm×100mm
- Weight 118kg
